SPZV-50 Stereo Zoom Trinocular Microscope

with Mighty Cam Pro on Double Arm Boom Stand

This high definition 1080P auto focus inspection system with a 22" monitor offers superb image quality at 60 frames per second. You can operate the system with or without a PC.

This innovative all-in-one inspection system gives operators two viewing options:

- **SPZV-50 Trinocular Microscope**
- View objects beneath the microscope in crystal-clear 3D, with a magnification range of 6.7x - 50x
- **Mighty Cam Pro - HDMI Monitor or PC**
- The Mighty Cam Pro inspection camera connects directly to your HD monitor via HDMI, or to your PC via USB
- View real-time images at a magnification range of 34x - 255x

Key Features

- Stereo Zoom Technology - Provides a crystal-clear 3D view of objects below the microscope
- Dual View- Examine objects on the HD monitor or through the microscope eye-pieces
- HDMI Mode - Save images, measure, and more without a PC
- SD Card Included - Save image and video files in HDMI mode
- PC Mode - Connect to a PC to utilize more advanced software features
